

[illegible]

-
- A line drawing of a bathtub with a glass partition on the right side. The partition is held in place by two vertical metal supports with cross-shaped bases. The bathtub has a standard oval shape and a flat rim.

This exploded view diagram illustrates the assembly of the KUBUS 1200x2000mm glass display cabinet. The components are numbered as follows:

- 1**: Identification label (Ident) for the cabinet.
- 2**: Upper vertical support rail.
- 3**: Upper vertical support rail with a locking mechanism.
- 4**: Upper vertical support rail with a locking mechanism.
- 5**: Lower vertical support rail.
- 6**: Lower vertical support rail with a locking mechanism.
- 7**: Lower vertical support rail with a locking mechanism.
- 8**: Lower vertical support rail with a locking mechanism.
- 9**: Lower vertical support rail with a locking mechanism.
- 10**: Screws and spacers for the support rails.
- 11**: Screws and spacers for the support rails.
- 12**: Screws and spacers for the support rails.
- 13**: Screws and spacers for the support rails.
- 14**: Screws and spacers for the support rails.
- 15**: The main glass display cabinet.
- 16**: The main glass display cabinet.
- 98**: A small tray containing screws and spacers.
