

A line drawing of a shower door in an open position. The door is hinged at the top and has a small circular handle. It is shown within a shower pan and side walls.

This exploded view diagram illustrates the components of a door assembly. The central element is the door panel (2). To its left is the door frame (5). To its right is the door jamb (1). Above the door panel is the door handle (6) and the door pull (8). Below the door panel are the door stops (7). To the right of the door jamb is the door seal (3). At the bottom right is the door threshold (98). The door frame (5) and door jamb (1) are shown with a 'Ident' label, indicating they are part of the same assembly.
