

A diagram of a shower stall with two doors. The doors are shown in a closed position, meeting in the center. The stall is depicted with a curved front and a flat back, with a showerhead visible on the back wall.

This exploded view diagram illustrates the components of a door assembly. The parts are numbered as follows:

- 1**: Vertical door frame or jamb.
- 2**: Vertical door frame or jamb.
- 3**: The main door panel, shown with a curved top edge.
- 4**: Curved bottom door frame or sill.
- 5**: Vertical door frame or jamb.
- 6**: Curved bottom door frame or sill.
- 7**: Vertical door frame or jamb.
- 8**: Curved bottom door frame or sill.
- 9**: Small rectangular components, possibly weatherstrips or spacers.
- 10**: A dashed box containing two types of fasteners (screws or bolts) and their corresponding brackets.
- 11**: A cylindrical component, likely a handle or knob.
- 12**: A vertical component, possibly a hinge or latch mechanism.
- 13**: A small L-shaped bracket or corner piece.

Additional labels include "Ident" (Identification) and "98" (likely a reference to a manual or page).
