

-
- A line drawing of a bathtub with a glass partition on the right side. The partition is held in place by two vertical metal supports with cross-shaped bases. The bathtub has a standard oval shape and a flat rim.

This exploded view diagram illustrates the components of a door assembly. The parts are numbered as follows:

- 1:** A small rectangular plate or cap.
- 2:** A small L-shaped bracket.
- 3:** A vertical trim piece.
- 4:** A small rectangular cap or plug.
- 5:** A small rectangular component, likely a hinge or latch part, shown in two locations.
- 6:** A long vertical trim piece with multiple screw holes.
- 7:** A long horizontal trim piece.
- 8:** A long horizontal trim piece with a small angled end.
- 9:** A long vertical trim piece.
- 10:** A dashed box containing various small hardware items like screws and washers.
- 11:** A long vertical trim piece with a label holder.
- 12:** A small rectangular cap or plug.
- 13:** A small L-shaped bracket.
- 14:** A rectangular panel, likely the door leaf.
- 15:** A rectangular panel, likely the door leaf.

The diagram shows how these parts are assembled onto the door panels and trim pieces. For example, parts 5 and 11 are shown being attached to the door panels (14 and 15). Part 11 also features a label holder with the word "Ident" on it. The trim pieces (3, 6, 7, 8, 9) are shown being attached to the edges of the door panels.
