

[illegible]

A line drawing of a bathtub with a glass partition on the right side. The partition is held in place by two vertical supports and has a handle in the center.

This exploded view diagram illustrates the components of a door handle assembly. The parts are numbered as follows:

- 1**: Small rectangular plate or cap.
- 2**: Long, thin vertical bar or trim piece.
- 3**: Vertical bar or trim piece, similar to 2 but shorter.
- 4**: Small rectangular plate or cap, similar to 1.
- 5**: Small rectangular plate or cap, similar to 1 and 4.
- 6**: Long, thin vertical bar or trim piece, similar to 2 and 3.
- 7**: Long, thin vertical bar or trim piece, similar to 2, 3, and 6.
- 8**: Long, thin vertical bar or trim piece, similar to 2, 3, 6, and 7.
- 9**: Long, thin vertical bar or trim piece, similar to 2, 3, 6, 7, and 8.
- 10**: Small rectangular plate or cap, similar to 1, 4, and 5.
- 11**: Small rectangular plate or cap, similar to 1, 4, and 5.
- 12**: Small rectangular plate or cap, similar to 1, 4, and 5.
- 13**: Small rectangular plate or cap, similar to 1, 4, and 5.
- 14**: Large rectangular plate or cap, similar to 1, 4, and 5.
- 15**: Large rectangular plate or cap, similar to 1, 4, and 5.

The diagram shows the assembly sequence: the large plates (14, 15) are mounted to the wall. The vertical bars (2, 3, 6, 7, 8, 9) are then attached to these plates using the small rectangular plates (1, 4, 5, 10, 11, 12, 13). The long bar (8) is shown at the bottom, likely representing the main handle or a decorative element.
