

[illegible]

A line drawing of a bathtub with a glass partition and a door. The bathtub is shown from a side-on perspective. The glass partition is on the right side, and the door is on the left side of the partition. The door is open, showing the interior of the bathtub. The bathtub has a curved front and a flat back. The glass partition is made of two panels held together by a metal frame. The door is also made of two panels held together by a metal frame. The bathtub is shown without any water or people.

This technical diagram illustrates the assembly of a window blind. The main components are labeled with circled numbers: 1 (slat), 2 (slat), 3 (slat), 4 (slat), 5 (slat), 6 (slat), 7 (slat), 8 (slat), 9 (slat), 10 (slat), 11 (slat), 12 (slat), 13 (slat), and 14 (slat). The diagram shows the slats being inserted into the headrail (1) and the footrail (2). The headrail and footrail are then attached to the window frame using brackets (3) and screws (4). The diagram also shows the installation of the side rails (5) and the bottom rail (6) using brackets (7) and screws (8). The final assembly is shown in the bottom right corner, with a small inset showing the completed blind.
