

[illegible]

An isometric line drawing of a bathtub. The bathtub is rectangular with a curved end. On the left side, there is a window with two vertical panes. The bathtub is set within a recessed area defined by three walls.

This exploded view diagram illustrates the components of a double door assembly. The parts are numbered as follows:

- 1, 2, 3, 4, 5, 6, 7, 8:** Various hardware components including side rails, rollers, hinges, and mounting brackets.
- 9:** The main door panels.

The diagram shows the spatial arrangement of these parts, indicating how they fit together to form the complete door system. A label 'Ident' with an arrow points to the side rail assembly (parts 1, 2, 3, 4, 5, 6, 7, 8).
