

[illegible]

A line drawing of a bathtub with a glass door. The door is shown in an open position, revealing the interior of the tub. The door has a frame and a handle.

This exploded view diagram illustrates the assembly of a window unit. The components are labeled as follows:

- 1**: Vertical frame or stile.
- 2**: Vertical frame or stile.
- 3**: A series of small circular fasteners or spacers along the edge of the frame.
- 4**: Hardware components, likely clips or pins, used to secure the frame and sashes.
- 5**: Vertical frame or stile.
- 6**: Hardware components, likely clips or pins, used to secure the frame and sashes.
- 7**: Hardware components, likely clips or pins, used to secure the frame and sashes.
- 8**: Hardware components, likely clips or pins, used to secure the frame and sashes.
- 9**: The main sash or pane of the window.

The diagram shows the frame (1, 2, 5) and sashes (9) being assembled together using the various hardware components (3, 4, 6, 7, 8) to create a functional window unit.
