Zur Montageanleitung

Die Montageanleitung ist Bestandteil des Duravit Produkts und muss vor der Montage sorgfältig gelesen werden.

Zielgruppe und Qualifikation

Das WC-Element darf nur durch ausgebildete Sanitärinstallateure montiert werden. Die Elektroinstallation darf nur von ausgebildeten Elektroinstallateuren durchgeführt werden.

Erklärung der Symbole

Verweis auf **Montagehinweis** in diesem Kapitel

Verweis auf weitere **Anleitung**

Kaltwasser

Wasserinstallation

Aufforderung zum Prüfen auf Dichtigkeit

> Handlung erforderlich

Sicherheitshinweise

Lebensgefahr durch Stromschlag

Der Kontakt mit Strom führt zu elektrischem Schlag.

> Elektroinstallation gemäß nationaler, europäischer und internationaler Richtlinien und Normen durchführen.

Produkt- und/oder Sachschäden

Der Verstoß gegen örtliche sowie länderspezifische Vorschriften und Normen kann Schäden am Produkt und/oder Sachschäden verursachen.

> Installationsvorschriften örtlicher Versorgungsunternehmen sowie länderspezifische Normen uneingeschränkt einhalten.

Vor der Montage

- > Tragfähigkeit der Wand prüfen.
- > Vorinstallationsdatenblätter beachten. Diese stehen im Internet unter www.pro.duravit.com zum Download bereit.

Montagehinweise

8 + 14 Position des Ablaufs beachten

Bei den WC-Elementen ist die Höhe des Ablaufs auf 220/240 mm voreingestellt. Die Höhe der WC-Elemente kann individuell angepasst werden.

- > Höhe des WC-Elements anhand der Position des Ablaufs einstellen, laut technischer Zeichnung des WCs. Bei reduzierter Elementhöhe ist keine Markierung für den Meterriss vorhanden.

36 Stromversorgung für Hygienespülung installieren (optional)

Optional nur für #WD1020.

- > Rohbauset für Hygienespülung installieren.

40 Tragfähigkeit der Wand beachten

- > Vorinstallationsdatenblätter beachten.

41 Position der WC-Betätigungsplatte beachten

Bei reduzierter Elementhöhe (#WD1017, #WD1019) kann die WC-Betätigungsplatte von vorn oder von oben montiert werden.

- > Vor der Beplankung prüfen, ob die Transportsicherung entfernt wurde.
- Beplankung bei Betätigung von vorn:
 - > Vorn beplanken.
 - > Oben beplanken, bis die obere Beplankung an die vordere Beplankung stößt.
- Beplankung bei Betätigung von oben:
 - > Oben beplanken.
 - > Vorn beplanken, bis die vordere Beplankung an die obere Beplankung stößt.

Mounting instructions information

The mounting instructions come as part of the Duravit product and must be read carefully prior to installation.

Target readership and qualifications

The toilet frame may only be installed by a qualified plumber. The electrical installation should only be carried out by qualified electricians.

Explanation of the symbols

Link to the **mounting instructions** in this section

Link to other **instructions**

Cold water

Water installation

Inspect to check for leaks and leak-tightness

> Action required

Safety instructions

Risk of fatal electric shock

Contact with electricity can lead to an electric shock.

- > Carry out the electrical installation in accordance with the national, European and international directives and standards.

Product and/or property damage

A breach of local and country-specific regulations and standards can cause damage to the product and/or property damage.

- > Observe the local installation regulations and any country-specific standards at all times.

Prior to the installation

- > Check the load-bearing capacity of the wall.
- > Please read the pre-installation data sheets. These are available to download on the Internet at www.pro.duravit.com.

Mounting instructions

8 + 14 Observing the position of the drain

The height of the drain must be preset at 220/240 mm for the toilet frames. The height of the toilet frames can be adjusted individually.

- > Set the height of the toilet frame based on the position of the drain according to the technical drawing of the toilet. There is no marking for the reference marker with reduced frame heights.

36 Installing the power supply for the hygienic flush (optional)

Optionally only for #WD1020.

- > Mount the installation set for the hygienic flush.

40 Observing the load-bearing capacity of the wall

- > Please read the pre-installation data sheets.

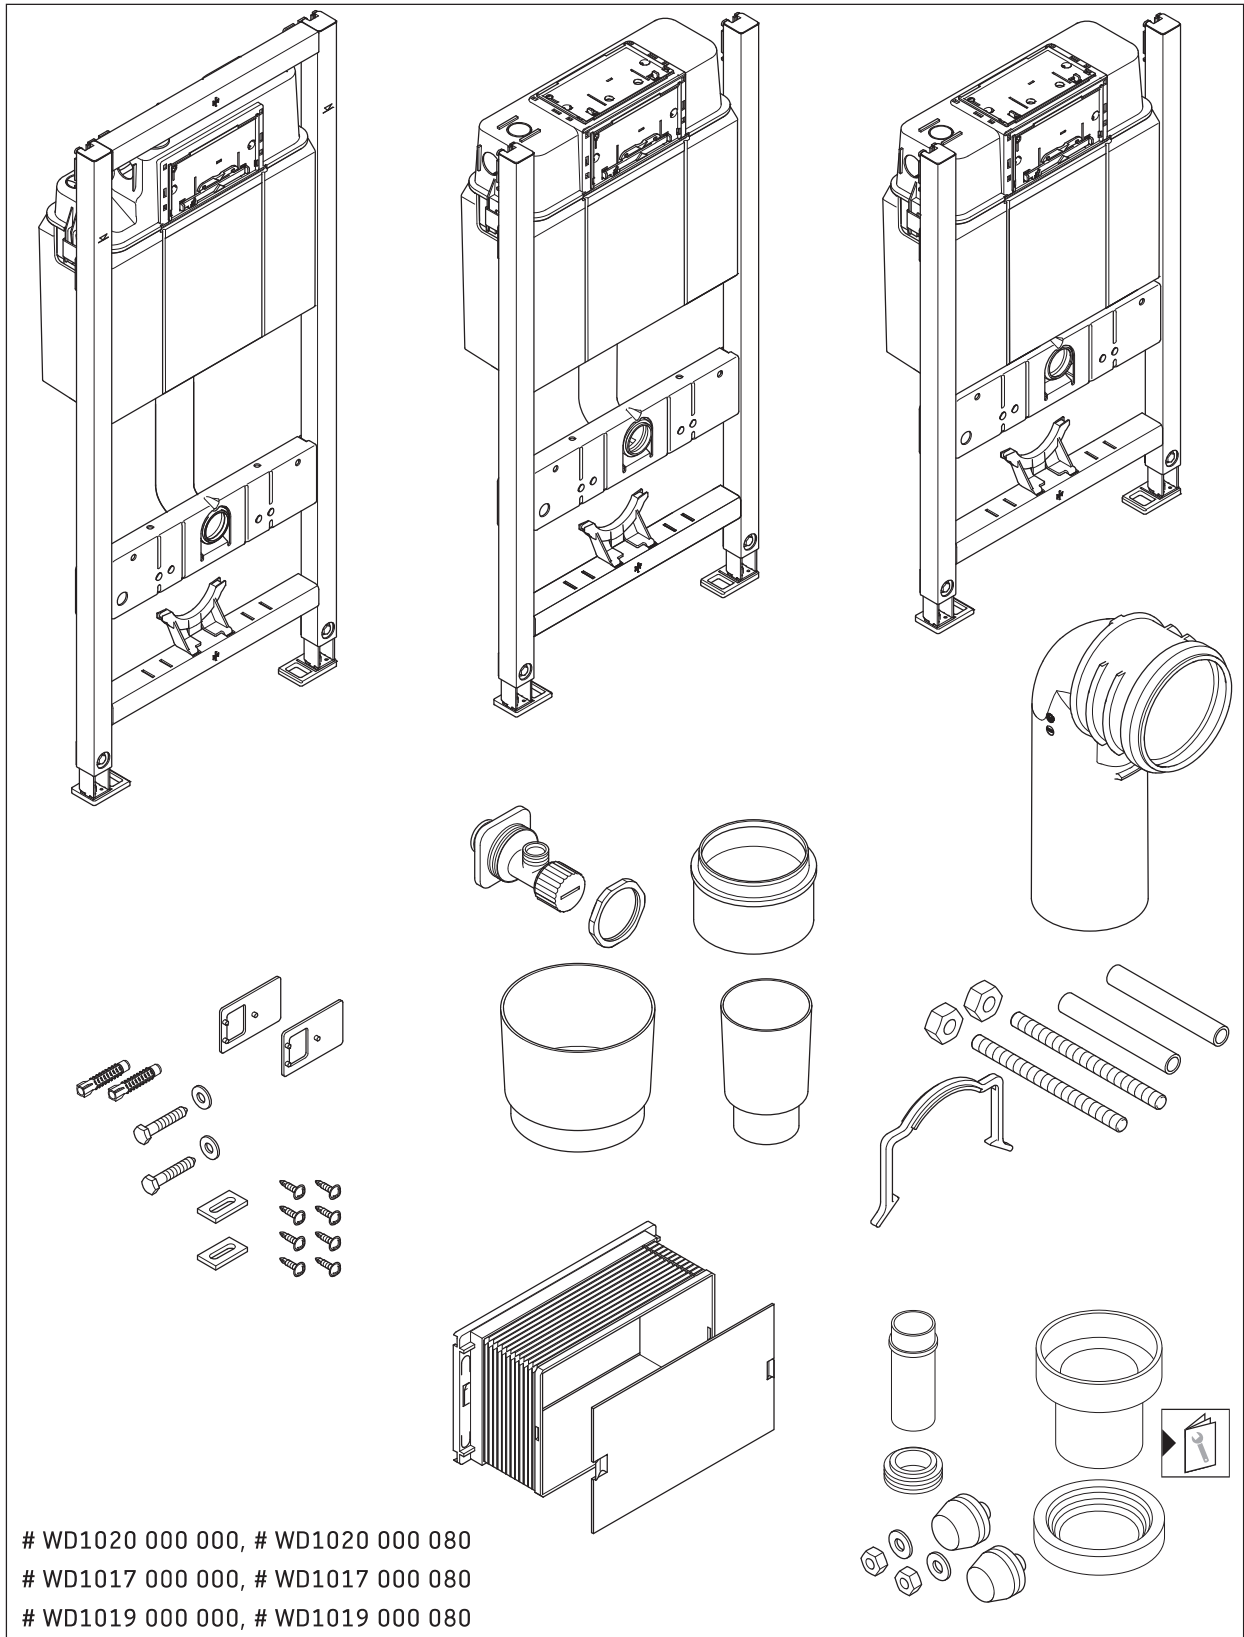

41 Observing the position of the toilet actuator plate

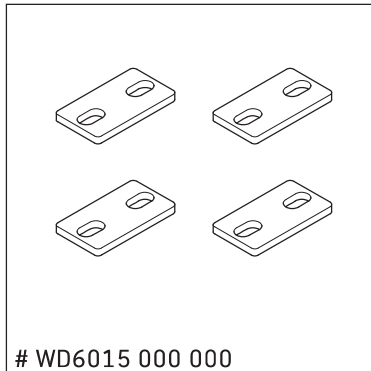

The toilet actuator plate can be mounted from the front or top with reduced frame heights (#WD1017, #WD1019).

- > Check that the transport lock has been removed before installing the panelling.
- Panelling for actuation from the front:
 - > install the panelling at the front.
 - > Install the panelling at the top until the top panelling butts against the front panelling.
- Panelling for actuation from the top:
 - > install the panelling at the top.
 - > Install the panelling at the front until the top panelling butts against the top panelling.
