## Important information

### Mounting instructions information

These mounting instructions come as part of the Duravit bathtub and should be read carefully prior to installation.

#### Target readership and qualifications

The bathtub must only be installed by trained plumbing engineers.

#### Explanation of the symbols

Link to the **mounting instructions** in this section

Inspection (e.g. for scratches)

Indication of the length of time (e.g. 10 minutes)

Inspect to check for leaks and leak-tightness

### Safety instructions

#### Product and/or property damage

Careless handling can result in damage to the surface of lacquered bathtubs.

- > Protect the bathtub from knocks and scratches during installation and transport.

A breach of local and country-specific regulations and standards can cause damage to the product and/or property damage.

- > Observe the local installation regulations and any country-specific standards at all times.

### Mounting instructions

Please read the pre-installation information sheets prior to the installation. These are available to download on the Internet at [www.pro.duravit.com](http://www.pro.duravit.com).

#### 1 Avoiding damage

- > Protect the bathtub from knocks and scratches in order to avoid damage to lacquered surfaces.

#### 3 Mounting the cable-driven waste and overflow

The connecting hose #790159/#790166 is recommended for mounting a bath spout with a waste and overflow set or base inlet.
